

Community Meeting

You're invited! Join Philadelphia Water and the West Poplar CDC to provide input on an upcoming construction project in your neighborhood.

Philadelphia Water has selected East Poplar Playground and many streets in your neighborhood for a Green City, Clean Waters project. This means we'll be planting more trees and plants in this area to soak up stormwater when it rains. **Join us to learn more about the project and provide feedback on the proposed designs.**

Date: Wednesday, October 14th
(rain or shine)

Time: 6:00 PM – 7:00 PM

Meeting Location:

John F. Street Community Center
1100 Poplar St.

This project is part of Philadelphia's Green City, Clean Waters program which works to improve the health of our local rivers. By planting trees and plants that soak up water when it rains, and by storing rain water underground, we can help keep the Delaware River clean.
